Report Explanatory Notes Page

This report presents data that is aggregated and is a snapshot in time.

Aggregated means that it is summed up to a particular level and certain calculations have been performed at that level.

Also, this data is a snapshot of the "live" data on the database as of a certain date. On the report, the date of aggregation is labeled AS OF. This is the date through which the data was last aggregated. Even though the process to aggregate the data may have been done two weeks later, the AS OF date represents the cut-off date for the data that was to be included in that aggregation

CM = Calculation Method used in determining Planning numbers.

Abbreviations used in this report:

P = Plan
C = Class
Q = Quota

UTIL% = Utilization Percent

ACAD = Academic
NACAD = Non-Academic
DSNRL = Disenroll

Additional Information:

The value "NA" (for Not Applicable) will be supplied for the PLAN UTIL% and DYNQ UTIL% columns when either the PLAN INPUT or DYNQ INPUT are zero, respectively. The UTIL% columns will be zero when the ACTUAL INPUT column is zero.
